About Mission: St. Louis - Mission: St. Louis is a nonprofit that is restoring the city by building relationships to empower people to transform their lives. With relationship in hand, we have made a strategic set of programs available to the people we serve. These programs work together to address critical stages in the cycle of poverty, like high school graduation + recidivism. We walk alongside people as they work their way through our programs, empowering entire families to break the cycle of poverty.
